I am a historian and curator interested in:

- the lives of ordinary people and the objects of their everyday
- the social history of houses and public buildings
- personal and community stories of migration and settlement
- ‘whole of life’ narratives
- stories of Jewish migration and diasporas

I've been working in heritage for 25+ years, recording stories, researching in archives, curating exhibitions using oral and written histories as well as objects and writing. I'm an accredited member of the Professional Historians Association.

I'm consultative and like to work with people to help them get what they want from a project.

I have over 15 years of recording life stories for clients from all walks of life. Their occupations range from a retired judge to a woman who was her whole life a Wimmera famer, to an immigrant from Manchester following WW2. I have a history degree and a very keen interest in 20 th century social,

political, economic, immigration and military history. My rural pioneer ancestors, a childhood in a small Mallee community, and ten years in business all led to a second career as an oral historian.

My emphasis is to facilitate a comprehensive and detailed series of recordings from 5 to 10 hours, and that the interviewee finds the process very easy and most pleasurable.
